

*Lk 21:25 "There will be signs in the sun, the moon, and the stars, and there will be distress on earth among the nations that are confused by the roaring of the sea and its waves.*

*26 People will faint from fear and apprehension because of the things that are to come on the inhabited world, because the powers of heaven will be shaken.*

It sounds a lot like today, doesn't it? And yet these words that Jesus spoke were spoken a little over 2000 years ago, looking forward to the end times.

As I write this, there is a global pandemic called Covid-19, and it's shutting the world down and threatening the global economy. People are hoarding hand sanitizers, disinfectants, protective masks, groceries, toilet paper and bottled water. People are wondering what they are going to do. Panic, fear, anxiety, conspiracy theories and end time prognostications are dominating people's lives. The question in most people's minds is ARE WE ACTUALLY LIVING IN THE END TIMES?

*But that shouldn't be the prominent question today.*

*But that shouldn't be the prominent question today.*

I personally believe this current crises will pass, and life as we know it will continue as it has in the past. People will be eating and drinking and getting married and having and raising children, going to work and paying bills.

The most relevant question a person should ask is "What will happen to me *when* I die?" Death is inevitable for all.

There is another global pandemic that has plagued the earth since the beginning of time, and it has a 100% mortality rate for all who contract the disease. Covid-19 attacks the lungs of a person. This other disease eats away at one's spiritual health, and is called sin. The Greek and Hebrew words for spirit also mean *breath*. The common consensus is that the Covid-19 virus actually began in Wuhan, China, and it spread from there. Sin began in a garden called Eden once located somewhere in the Middle East.

The Covid-19 virus is believed to have originated from animals and was transmitted to humans. Sin began with a creature known as the the serpent, and was transmitted to humans through their wilful disobedience to God.

God created humanity to live eternally with Him, tending to the earth and taking care of God's Creation. God only gave

mankind one rule. And God's enemy, Satan used the serpent to deceive the man and the woman God had made, to convince them that they didn't have to obey God. They chose to believe the serpent's lie, instead of the Truth of God, and sin brought mortality to their bodies. But yet they had an eternal spirit that was created in the Image of the eternal God, that could not be destroyed. But the plague of sin cannot live in the Presence of God. Once their mortal body died, their spirit would continue to exist. And they would be destined to go to the place that Satan was destined to go, because they chose to follow him and his ways – into the Lake of Fire.

Scientists will find a cure for Covid-19, and God made a Cure to redeem all of mankind from the disease of sin, and to spend eternity with Him. That Cure is in Jesus Christ, a man Who was born of a young virgin who had conceived supernaturally by the Holy Spirit of God. Just as God spoke His Creation into existence, He sent forth His Word Who was manifested as His Only Begotten Son.

He lived a sinless life, because He was born of God, who knew no sin. He walked among humanity to demonstrate what it is to live as a child of God. he Bible says every one who says they believe in Him should live like He did (1 Jn
